

# Who we are

Aust Bore is one of the largest capacity machine shops in Central Queensland; servicing industries such as mining, sugar, agriculture and marine, since 1986. Owned and supported by Austin Engineering Limited (ASX:ANG), we have access to the Austin Group engineering design and FEA services.

## Engineering solutions with proven reliability in all services

### Our Principle Services

- > Repairs / Refurbishment / Overhaul / Remanufacture
- > Specialised fabrication and welding services with in-house WTIA Certified personnel
- > Specialised machining capabilities with highly skilled machinists
- > Fully equipped line boring units with skilled line borer/machinists and boilermakers to service your on-site needs
- > Service and exchange parts

We offer full servicing of sticks, booms and buckets, crack-repairs, line boring as well as a supply of bushes & pins and fitment.

### Quality Control and Assurance

Our operation offers both Quality Control and Quality Assurance, using a dedicated Quality Control Officer to ensure our client's project deliverables and expectations are achieved.

### Health and Safety

The safety and welfare of our people is our most important value. We operate our businesses so as to ensure that all our employees, sub-contractors and the communities in which we operate are kept safe and free of injury and illness.

We are **AS 4801** certified.
